

ILLUSTRATOR DRAWING TIPS

What do I need?

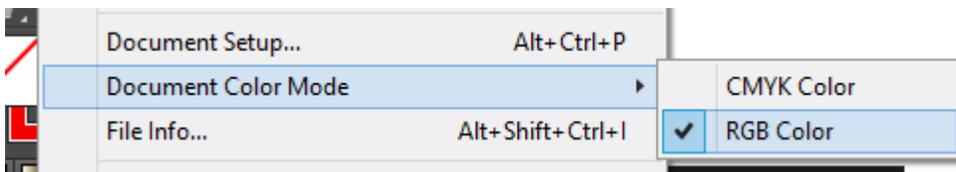

To get started with the laser cutter, you will need the **Adobe Illustrator software** so that you can draw up your design.

- Make sure the **colour mode** is set to **RGB** (Red Green Blue) when you start a new document and document size is 400 x 300 mm.

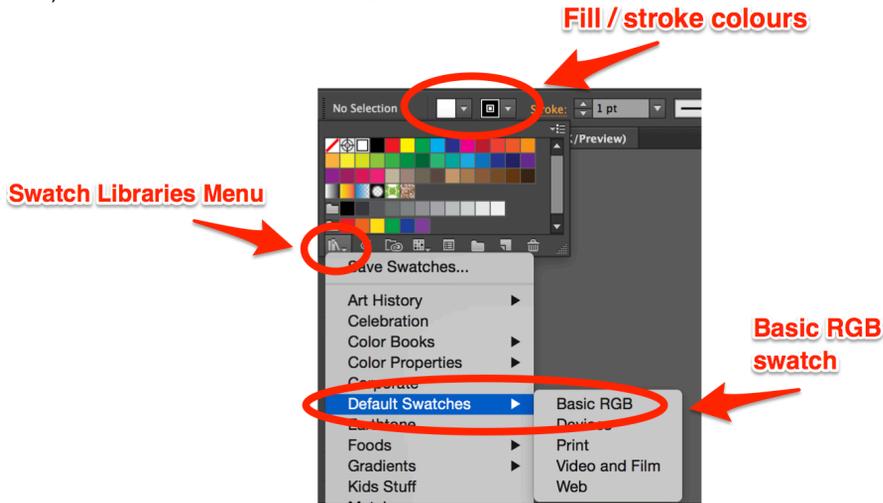

- You can also change the colour mode from the File menu.

ILLUSTRATOR DRAWING TIPS

How do I draw my laser cut design?

- Make sure you are using the RGB colour swatch – click on the fill/stroke colour you want to change, click on Swatch Libraries Menu > Default Swatches, and select Basic RGB.

- For engraving (filled shapes/text), set the fill colour to **RGB BLACK**.
- For marking, set the stroke colour to **RGB BLUE** and line thickness to 0.001
- For cutting, set the stroke colour to **RGB RED** and line thickness to 0.001
